

## **Exhibit 6**

1 Centene didn't employ people, and Centene didn't  
2 control the labor relations and employment relations  
3 of its subsidiaries, that those decisions were made  
4 at -- elsewhere.

5           Now, what Miss Dinkelman is going to testify  
6 to, that's the answer you want, is the level of  
7 knowledge that Centene Corporation would have about  
8 these questions.

9           **MR. LANGENFELD:** And I think she's going to  
10 sit there and tell me they don't have any employees  
11 so they don't have any information. Is that where  
12 we're headed?

13           **MR. KAISER:** Well, yes. Yes, and she is  
14 going to say they don't have any employees so that  
15 there's no information available when it refers to  
16 employees of Centene Corporation. But she's also  
17 going to testify that that level -- the areas of  
18 inquiry, we can go through them, are not rolled up  
19 to Centene Corporation as -- so the subsidiaries  
20 don't report that information to Centene Corporation  
21 either.

22           **MR. LANGENFELD:** The areas of inquiry has  
23 asked for the people employed by Centene Corporation  
24 and any and all of its subsidiaries. So I'm asking  
25 specifically about employees of the subsidiaries.
